

CHAPTERS

Members of YGL chapters enjoy the opportunity to build lasting relationships with other aspiring government leaders and to brainstorm about potential solutions to the significant challenges the government faces now and in the next century. YGL encourages members to get involved, make a difference, and develop their leadership potential. Concurrently, members are guaranteed to have fun, develop long lasting friendships, and make a real difference in the business of government. YGL offers training and professional development opportunities, networking, mentorship, community service, social events, and corporate discounts to our members.

Interested in forming a Chapter of Young Government Leaders? See the guidelines and requirements [HERE](#).
